Workflow

Data Analysis Pipeline

William's Targets:

- H1: Rural, Non-Renovated
- H2: 10mi+, Large Lot
- H3: 2+ Floors, Urban

H1: Price vs Renovation Status

Country House Analysis

Testing whether non-renovated rural homes are cheaper, controlling for size

Price vs Renovation - Findings

Key Findings

- Rural houses only (3 zip codes)
- Effect direction varies by size
- Medium homes: \$8K cheaper (non-reno)
- Large homes: \$21.75K cheaper (non-reno)
- Small homes: \$2.5K pricier (non-reno)

Key Metrics

Test Used	Mann-Whitney U
Medium n	539 houses
p-value	0.377
Significant?	No
Median Gap	\$8,000
Rural Zips	98038/42/23

H1 Analysis

House Selection Criteria

Property Targets

- ✓ Location: Rural (quiet, private)
- ✓ Renovation: Non-Renovated
- ✓ Size: Medium (1,677-2,260 sqft)
- ✓ Sorted by price (best value)
- ✓ Matches "space over polish" persona

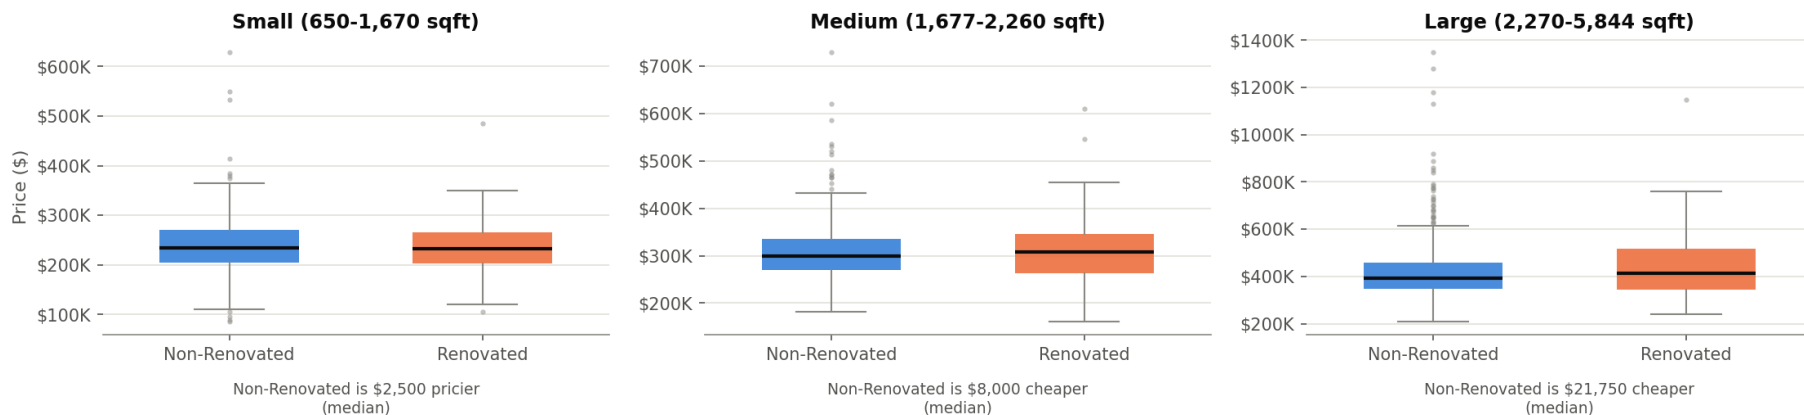

Selection Criteria

Criteria	Target
Location	✓ Rural
Renovation	✓ Non-Renovated
Size Range	✓ Medium
Zipcode	✓ 98023
Homes Found	✓ 2

Price by Renovation Status (by Size)

H1: Non-Renovated Rural Homes Are Not Consistently Cheaper

Median price by renovation status, controlling for living-area size (William's Rural zip codes)

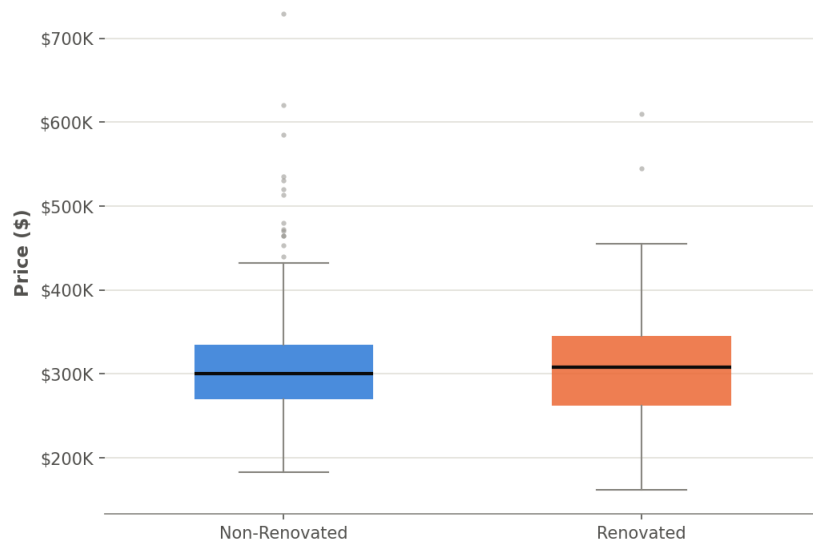

Effect direction is mixed across Small / Medium / Large rural homes

Price by Renovation Status (Medium Only)

H1: Price by Renovation Status - Medium-Size Rural Homes

1,677-2,260 sqft living area · n = 539 houses

Non-Renovated median is \$8,000 cheaper than Renovated

Focus view: the size band actually used for William's two candidates

Two Rural Homes for William

House #1 - Zip 98023

Price	\$182,700
Living Area	1,740 sqft
Bed / Bath	3 / 2.25
Year Built	1978
Lot Size	6,650 sqft

Why William will love it:

- ✓ Rural, quiet, no close neighbors
- ✓ Non-renovated = lower price
- ✓ Lowest price in candidate pool

House #2 - Zip 98023

Price	\$185,000
Living Area	1,990 sqft
Bed / Bath	5 / 1.75
Year Built	1955
Lot Size	27,810 sqft

Why William will love it:

- ✓ Much larger lot for the dog
- ✓ More bedrooms, similar price
- ✓ Second-lowest price in pool

H2: Lot Size vs Distance From Downtown Seattle

Testing whether lot size grows the farther a home is from downtown

H2 Analysis

Distance vs Lot Size - Findings

Key Findings

- Positive correlation confirmed
- Effect: +1,440 sqft/mile out
- Highly significant ($p < 0.001$)
- ~20,900 houses analyzed
- H2 hypothesis confirmed

Key Metrics

Distance	Avg Lot Size
5 mi	~5,000 sqft
10 mi	~14,400 sqft
15 mi	~19,000 sqft
20 mi	~23,600 sqft
Correlation	$r = 0.2435$

H2 Analysis

House Selection Criteria

Two Distance Tiers

- Suburban: ~10-15 miles out
- Rural: 15+ miles out
- Pick largest lot in each band
- Both Non-Renovated
- Two distinct price/space tiers

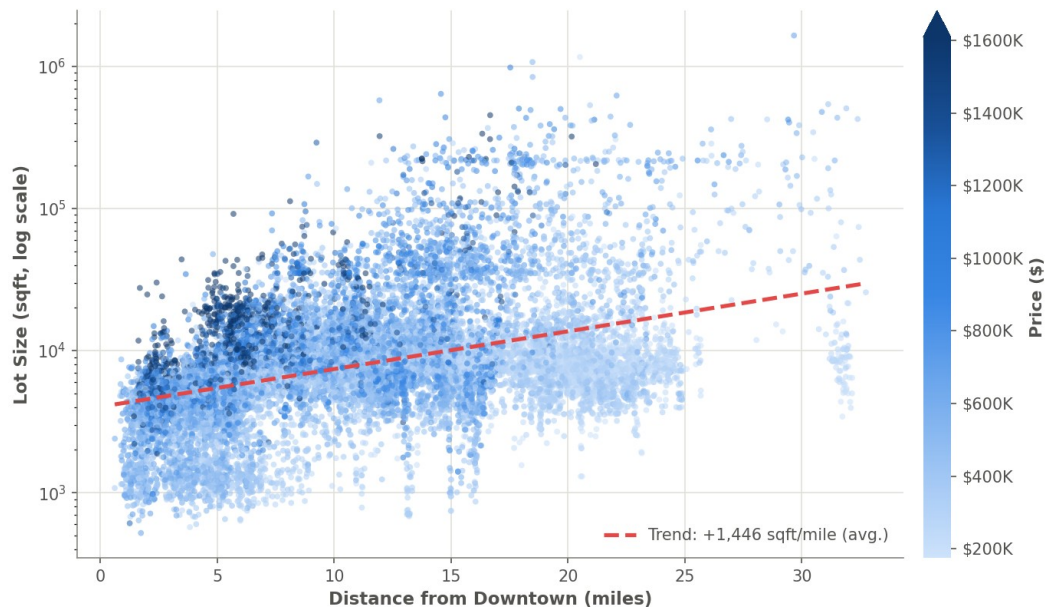

Selection Criteria

Criteria	Target
Suburban Dist.	✓ ~14.6 mi
Rural Dist.	✓ ~29.7 mi
Suburban Lot	✓ 641,203 sqft
Rural Lot	✓ 1,651,359 sqft
Homes Found	✓ 2

Lot Size Grows With Distance (Colored by Price)

H2: Lot Size Grows With Distance From Downtown Seattle

Color = sale price · n = 20,896 houses

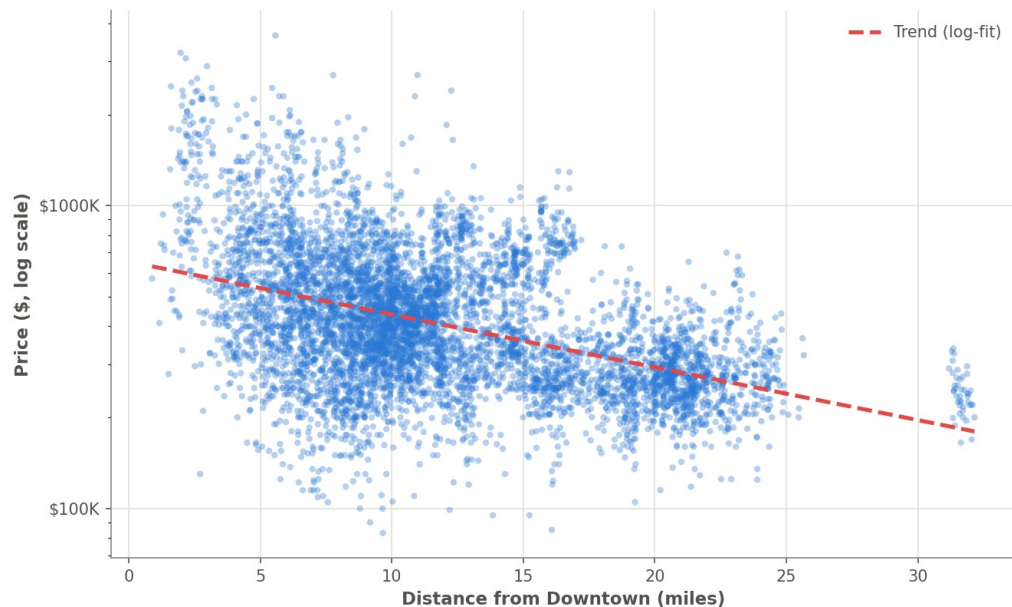

An interactive Seattle map version (zoomable) is also available in [work](#) and [report/figures/](#)

Price vs Distance (Medium Lot-Size Homes)

H2: Price vs Distance - Medium Lot-Size Homes Only

Lot size 6,001-9,360 sqft (middle tertile) · n = 6,759 houses

Among similarly-sized lots, price still drops sharply the farther out you go

then double-click H2_plot_lotsize_geographic_map.html

Suburban and Rural Options

Suburban - Zip 98070

Price	\$849,900
Distance	14.56 mi
Lot Size	641,203 sqft
Living Area	2,280 sqft
Bed / Bath	2 / 2

Why William will love it:

- ✓ Quiet and peaceful, not too far
- ✓ Large lot for outdoor space
- ✓ Confirmed by H2: closer-in large lot

Rural - Zip 98022

Price	\$700,000
Distance	29.66 mi
Lot Size	1,651,359 sqft
Living Area	1,300 sqft
Bed / Bath	4 / 1

Why William will love it:

- ✓ Maximum quiet and solitude
- ✓ Huge lot: maximum privacy
- ✓ Cheaper than the suburban option

H3: Floors vs Lot Size

Urban City House Analysis

Testing whether multi-floor homes sit on smaller, more compact lots

H3 Analysis

Floors vs Lot Size - Findings & Criteria

Key Findings

- Negative correlation: $r = -0.316$
- Highly significant: $p < 0.0001$
- 18,404 Urban houses analyzed
- 4,706 houses match criteria
- Compact lots = vertical living

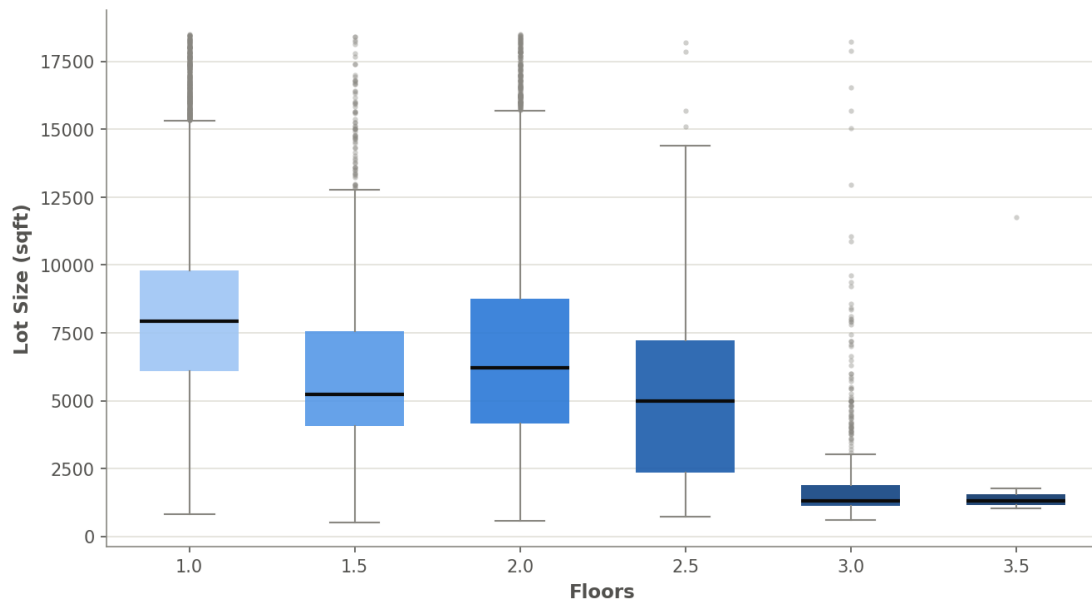

Selection Criteria

Floors	✓ ≥ 2
Lot Size	✓ $\leq 7,200$ sqft (median)
Location	✓ Urban (RUCA 1)
Sort Order	✓ Price descending
Assumption*	✓ Pricier sells faster
Homes Found	✓ 2 (tied at \$2.95M)

Lot Size by Floor Count (Urban Houses)

H3: More Floors Goes With Smaller Lots (Urban Houses)

Spearman $r = -0.316$ · $p < 0.0001$ · $n = 18,404$ houses

More floors goes with smaller lots - $r = -0.316$, $p < 0.0001$, $n = 18,404$

Two Compact City Homes

House #1 - Zip 98107

Price	\$2,950,000
Floors	3.0
Lot Size	5,722 sqft
Living Area	4,340 sqft
Bed / Bath	5 / 4.5

Why William will love it:

- ✓ Genuinely vertical, compact footprint
- ✓ Well below the Urban median lot
- ✓ Tied for highest price - assumed fastest sale

House #2 - Zip 98199

Price	\$2,950,000
Floors	2.0
Lot Size	5,884 sqft
Living Area	4,470 sqft
Bed / Bath	4 / 4.25

Why William will love it:

- ✓ Slightly larger living area
- ✓ Well below the Urban median lot
- ✓ Tied for highest price - assumed fastest sale

Two-House Strategy Summary

William's Country House + City House

Country House - H1

- Rural, Non-Renovated
- Medium size preferred
- \$182.7K - \$185K range

Country House - H2

- 10mi+ = bigger lots
- Suburban or Rural tiers
- \$700K - \$850K range

City House (H3)

- 2+ floors, compact lot
- Urban core (RUCA 1)
- Candidates: tied at \$2.95M

Q&A

Thank you for listening and paying attention
